

2nd ANNUAL DRAVET FAMILY 5K RUN/WALK

Dravet Syndrome is a rare, catastrophic form of epilepsy for which there is currently no cure. Children with this syndrome do not outgrow this condition and it affects every aspect of their daily lives. Unless a cure or better treatments for Dravet syndrome is found, individuals with this disorder face a diminished quality of life and death.

Dravet.org is an international partnership of parents and professionals united in the purpose of promoting greater awareness, understanding and funding research for Dravet syndrome and related forms of epilepsy. Dravet.org works to provide families with mentorship, optimism, opportunities to participate in research, and resources to help them obtain access to appropriate treatments. All proceeds from 5K will go to this non-profit organization.

Saturday, August 11, 2012

.....
 TIGER Parents are parents that have had less than 12 happy months with their newborn! They are parents who watch their child fight a life threatening disorder every day, and constantly feel helpless. They are parents who are exhausted and nerve-wrecked, but are never allowed to be exhausted or nerve-wrecked. They are the parents who feel touched by God when their child lives another day. They are the parents that feel touched by God when their child passes away. They are the parents who have turned their children's lost lives into their own lives. They are the parents of a Dravet child.

*** Kids please show your support for these Dravet parents by sporting the cutest TIGER costume. Prizes will be awarded to top three costumes!**

| Participant | Address | Age | 5k or kids run | Fee | Total |
